Station sharps checklist

For Ontario personal service settings (tattoo & piercing). Station: _____ Checked by: _____ Date: _____

- ☐ Sharps are placed in a sharps container **immediately after use**.
  O. Reg. 136/18
- ☐ The container is in **close proximity** to where the service is performed — easy to reach at every point of use.
  O. Reg. 136/18; PSS Guideline 2019
- ☐ The container is **puncture- and leak-resistant** and has a **fill line**.
  O. Reg. 136/18 (definition of sharps container)
- ☐ The container has a **biohazard label**.
  PSS Guideline 2019; Guideline C-4
- ☐ Sharps can be dropped in **with one hand**.
  PSS Guideline 2019
- ☐ The container is **not filled with disinfectant**.
  PSS Guideline 2019
- ☐ The container is **not overfilled**; it is sealed and replaced at the fill line or when **¾ full**.
  PSS Guideline 2019
- ☐ Sharps used are **sterile and single-use**.
  O. Reg. 136/18
- ☐ Full containers go to a **licensed biomedical waste carrier** (company holding a waste management system ECA), not the pharmacy take-back program.
  Guideline C-4; HPSA Ontario Sharps Collection Program exclusions
